CAGs Information Booklet – Year 11

March 2021

Dear Students,

The first thing I want to do is congratulate you for your strength and perseverance during the last year. Your engagement with your teachers alongside your work ethic is to be commended. These are unprecedented times and you did not choose to for this to happen. As you are fully aware, the government has cancelled exams in the normal sense this year and has asked schools again to submit Centre Assessment Grades (CAGs) instead.

Last year we put an accurate, rigorous and fair system in place that fully reflected what our students would have achieved. This year we have done the same, we have put together an accurate, **rigorous and fair** system for you, a system where you have the opportunity to demonstrate what you can achieve.

We have 3 assessment points, the first being the current mocks, the second a series of class based assessments that may include practicals and NEAs and the final one being an assessment week in May. The Assessment Points have been designed to give students multiple opportunities to show the progress they have made between each point. Further detailed information from each subject is contained within this booklet.

Schools are all taking different approaches that reflect their students and situation. This is why the exams have been cancelled so that each school can put in place what is best for their year groups who were expecting to take their examinations this Summer. You have spent the last two years learning and progressing throughout all your courses and now is the time to show your learning.

This booklet will explain what each of your subjects is doing and how you are going to be assessed. Every subject is unique and they have planned what is best for each individual subject taking into account what has been learned, what needs to be assessed and any impact lockdown has had on your learning.

Your work will be assessed over the coming months, moderated internally and externally by exam trained staff to ensure full accuracy of all grades awarded. The most important thing now is for you to continue to work hard, reflect on your teacher's feedback and demonstrate what grade you deserve. JCQ will be expecting us to send all 3 pieces of evidence to them in the event of either a request as part of the QA process or an appeal from a student and when as staff we apply our final grade we may in some cases use the third Assessment Point to assist with our final decision.
